

Resolved: Known Issue: KI9.2-147_GL – nVision Drilldowns Running to Error

UPDATED: November 7, 2022

STATUS: Resolved

RESOLUTION: ITS applied a fix from Oracle on Friday, November 4, 2022, that resolved the loss of nVision drilldown functionality. Users can now run nVision drilldowns and access their financial data.

NAVIGATION: Reporting Tools > PS/nVision > PS/nVision Schedule Requests

ISSUE: Users working with nVision reports are receiving an error when attempting to run Drilldowns. The error is preventing the use of the drill down feature within nVision reports.
