

Resolved: Known Issue - KI9.2-142_BP – Position Budget and Department Budget Business Unit Prompt Not Correctly Restricting Input

UPDATED: March 22, 2021

STATUS: Resolved

RESOLUTION: ITS updated the Business Unit field on the search page for Position Budget and Department Budget pages to restrict user input based on Business Unit. Additionally, ITS modified this page to require the Business Unit as search criteria.

NAVIGATION: Navigator > BOR Menus > BOR Position Budget Mgmt > Position Budget or Department Budget

ISSUE: The Business Unit field on the search page for Position Budget and Department Budget pages is not correctly restricting input. Input should be restricted based on the user's business unit. Currently, users can key any value in the Business Unit field without receiving an error.
